Daniel Smith

Senior Devops Engineer

✉ dalejandrole@gmail.com   📞 +41 067 768 51 67   📍 Bern, Switzerland

Profile

Highly motivated Senior Level DevOps Engineer with 4+ year of experience in developing and implementing CI/CD pipelines, optimizing application performance, and automating system administration tasks. Skilled in cloud-based infrastructure design, security best practices, and system capacity planning. Proven track record in reducing deployment time by 50%, increasing team productivity by 25%, and reducing operational costs by 40%.

Professional Experience

01/2022 – 05/2023

Senior DevOps Engineer
astarios
- Developed and implemented a CI/CD pipeline for a new application, reducing deployment time by 50% and increasing team productivity by 25%.
- Collaborated with development teams to optimize application performance, resulting in a 15% increase in user satisfaction and a 10% increase in revenue.
- Maintained system documentation and provided training to new team members, improving onboarding time by 30%.

02/2020 – 12/2021

Junior DevOps Engineer
dctrl
- Developed and maintained scripts to automate system administration tasks, reducing manual workload by 50% and increasing team efficiency by 20%.
- Implemented security best practices and conducted regular vulnerability assessments, ensuring system integrity and compliance with industry standards.
- Researched and evaluated new technologies to improve system performance, resulting in a 10% reduction in system response time and a 5% increase in overall system efficiency.

10/2018 – 01/2020

Full Stack Developer
Divio
- Increased company revenue by 30% within 2 months after developing and implementing business logic for over 20 features.
- Designed and Developed UI design for over 15 clients using CSS, HTML, ASP.NET, Vue, and React, Websites scoring over 85 on Lighthouse.
- Created endpoints to handle results, which improved the accuracy and upload speed of each result by at least 50%.
- Managed 100+ client accounts and received 95% satisfaction.

Skills

CI/CD pipeline development and implementation

Cloud-based infrastructure design and implementation

System monitoring and log analysis

Capacity planning and performance tuning

Script development and automation

Security best practices and vulnerability assessments

Application performance optimization

System documentation and training

Research and evaluation of new technologies

Collaboration and communication with development teams

Education

04/2014 – 08/2018
Bern, Switzerland

Bachelor's Degree / Computer Science
University of Bern

Certificates

- Azure Devops Engineer Expert
- Docker Certified Associate (DCA)
